

Alumni IIUI 2021

Ch. Muhammad Imran [Muhammad Imran]

BS & MS (CS) – August 1999 to January 2005 from IIU, Islamabad.

Founder & Chief Technical Officer (CTO) at enterprise Resources Research Solutions Private Limited.

More than one decade experience in the field of Computer Sciences and the Politics across the globe. Mostly worked on national level projects to secure and digitize Islamic Republic of Pakistan. In this context, worked across the globe to deploy worth winning solutions in the domain of Multi-modal Biometrics, Email DBs, Satellite communication, business automation. Currently, running two business units with the name “enterprise Resources & solutions (eRAS)”, “enterprise Research & Solutions (eRAS)”.

Beside, heavily involved in the national security updates and the political analysis to develop prosperous Islamic Republic of Pakistan for the next generation. During 20 years in the computer sciences field coordinated extensively with the multi-national businesses. Always love to hike and fly with browsing of the advanced technologies. In parallel, pursuing PhD in Computer Sciences from International Islamic University, Islamabad.

Stay Blessed!
