

The Dean,  
Faculty of Basic and Applied Sciences,  
International Islamic University, Islamabad.

Sir,

Reference to the attached applications, exchanged with 'Interior Ministry' & other relevant institutes including FIA, ISI, International Human Rights Organizations.

I recently enrolled in the International Islamic University Islamabad in a PhD CS Research Scholar programme having registration number 173-FBAS/PHDCS/F20. Previously completed BS and MS degrees from IIUI during September 99 to January 2005 in the computer Science.

Personally, I observed individuals mentioned in the documents are attached with IIUI using duplicate IDs and they have same approach against me. During, two months tenure I faced same kind a communist acts from this connected lobby. I am suffering due to these individuals extensively from last one decade. Which I mentioned/reported to the different relevant departments several times.

Previously, I faced severe damages from them in my business setup enterpriseRAS.com and the physical health related constraints.

I would like IIUI Administration and Management should take appropriate actions against all these connected individuals as per their rules and the regulations.

Kind Regards,

Ch. Muhammad Imran
